SKILLS

- Java, Python (NumPy, Pandas), JavaScript, React, Node.js, Express.js, SQL, Assembly, HTML, CSS
- Fluent in English, French and Arabic, Team worker, Capable of independent work, Effective collaborator.

EXPERIENCE

Car Rental Service: *Full-Stack project*   01/2024 – 4/2024

- Led the team using agile practices, including Scrum methodologies, sprint planning, and daily stand-ups, to ensure iterative development and continuous feedback. This approach led to the development of robust, user-friendly features that were recognized as the best in our category.
- Leveraged Google Maps API to create a customized map displaying branch locations and integrated OpenAI API for a swift AI-based email response system, enhancing user interaction and automating communications.
- Developed the entire front-end using React, enhancing user interface responsiveness and interactivity.

Financial Planner Application: *Full-Stack project*   10/2023 – 01/2024

- Designed a single-page application (SPA) for a seamless user experience using only HTML, CSS, and JavaScript.
- Developed back-end functionality with Node.js and Express, enabling efficient finance management.
- Created a simple financial planner with features to track expenses and income, providing users with insightful statistics and visualizations to manage their finances effectively.

Cybersecurity Hackathon: *participant*   04/2024– 04/2024

- Successfully solved the majority of the puzzles presented, demonstrating strong problem-solving skills and a deep understanding of cybersecurity principles.
- Participated in a high-stakes cybersecurity hackathon, collaborating with a team of skilled peers to tackle complex security challenges.
- Gained extensive knowledge in various cybersecurity domains, including cryptographic analysis, network traffic inspection, and vulnerability exploitation.

EDUCATION

Concordia University || Montreal, Canada   Jan 2023 – Jan 2027
B.Eng. Software Engineering

Relevant Coursework: Data Structures and Algorithms, Object-Oriented Programming, Web Programming, System Hardware, Software Process and Practices, Udemy course: React.js, Udemy course: Python for Data Science and Machine Learning.

OUTSIDE WORK EXPERIENCE

Security supervisor Hospital (Perceptage)   01/2021– 04/2023

- Supervised and managed a team of 10 to 15 security guards, ensuring effective communication and coordination.
- Balanced a full-time job (32 hours) while pursuing education. Efficiently managed staff scheduling, break rotations, and handled unexpected absences to maintain continuous security coverage.
